

Classroom Treats Waiver

Name: _____ Grade: _____ Teacher: _____

For your child's health and safety it is preferred that you supply their teacher with a bag of safe treats in the event of a class party.

Party treats may include homemade food brought in from other parents. Cross contamination is always a possibility. In addition to that, many food labels read 'made in a facility' with the allergen in question and/or food that 'may contain' the allergen in question.

If you choose to allow your child to consume party treats please be aware that your child is responsible for knowing what they can and can't have.

Your child will not be allowed to consume food with a label that specifically states their allergen in the ingredients. However, staff is not responsible for determining what food your child can consume if it was homemade or if it has a label that reads 'may contain' the allergen or 'made in a facility' with the allergen.

Please sign below and return this waiver to your building's health office if you would like your child to be able to consume in class party treats.

If you prefer that your child only consume food sent in from home you may disregard this form and supply a bag of safe treats to the classroom teacher.

I _____ give my child _____ permission to consume party treats/food brought into the classroom by other parents. I understand that it is my child's responsibility to know what they can safely consume.

Parent/Guardian signature _____
