

Name _____

Date _____

Welcome to 6th Grade Math Skills with Ms. Scheetz!

Here are the answers to some questions that might be going through your head!

What is Math Skills?

The purpose of this class is to reinforce the skills and concepts you are learning in your daily Math class. You will have Math Skills during one period every other day. We will either preview or review concepts and skills covered in your daily Math class.

What materials do I need?

Please bring a folder, a marble notebook, and at least 2 sharpened pencils (with erasers!) to class with you each day.

How will I be graded?

You will receive a pass/fail grade for this class. To be successful, you must actively participate in class.

This means you will:

- **ask questions when you do not understand something**
- **participate in class activities**
- **complete all work on time with your best effort**

What if I am having trouble with a certain topic we are covering?

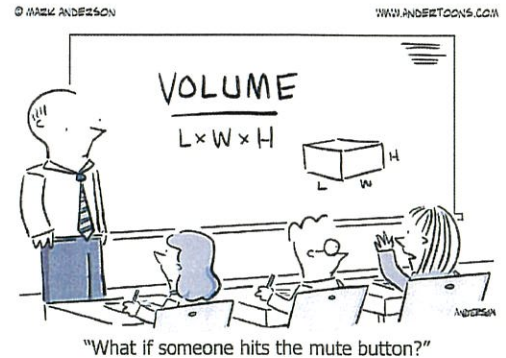

Being open and honest is the best policy to follow. This class is meant to help everyone work to the best of their ability and to be successful. I am here to help and you can speak to me in class about anything that is concerning you. If there is something that you would like to discuss with me outside of the regular class time just let me know and we can set up a time to meet.

What do you expect from me?

I have 3 simple requests...

1. **Be on time and prepared.**
2. **Always do your best.**
3. **Respect your classmates and teachers.**

It's that simple!

"What if someone hits the mute button?"
