Class Rules:

All children are expected to know and follow these rules:

- Treat everyone with courtesy and respect.
- When the teacher or a classmate is sharing, do not interrupt.
- Do not use the teacher's or another student's supplies without asking permission.
- Listen carefully to all instructions.
- Complete all assignments neatly and on time.

Grading Procedure:

Quarterly grades will be based on a combination of the following:

Tests and Quizzes

Class Participation, Homework, & Effort

Homework:

Homework is an extension of the learning experience children have during the instructional day. Our policy is stated below:

The homework we give falls into one of these four categories:

- **Remedial Drill:** This is an extension of work that has been introduced in class. This homework is an individualized drill activity designed to help strengthen the child's weak areas.
- **Research:** This is work which involves the use of reference materials. It is often given on an extended-time basis.
- **Unfinished Work:** This is work that is not completed in class and is within the student's capability to finish at home.
- **Review:** This is time spent at home studying and preparing for tests.

We also require that students read for at least twenty minutes a day.

All homework assignments Monday - Friday will be written on the Homework board. It is the students' responsibility to copy these into their assignment pads. (A **Homework Notice** will be given to any student who does not hand in an assignment. Parent's signature is requested on homework notice.)
