

Welcome Back! I hope you had a healthy and fun spring and summer. I am looking forward to a fun and mathematically challenging year.

Supplies

- ❖ Unit packet (provided)
 - I suggest you get a 3-ring binder to keep completed packets to use at a later date.
- ❖ Pencils/pens
- ❖
- ❖ Download Google classroom and activate notifications.
 - Why do I need notifications on? If I change due dates, announce a mistake or jump on google meets to help a student I will post on google classroom and notifications will alert you. The phone app also makes submitting assignments a little easier.

Grading Policy

Your grade will be calculated based on performance in the following areas:

- ❖ Daily Homework- completed (show all work!) by the due date, will not be accepted late
- ❖ Assignments - assignments given multiple days to complete will be accepted one day late with a 25% deduction; no credit given after one day late
- ❖ Quizzes
- ❖ Tests (always announced in advance)
 - A total points system will be used to calculate your grade. Each assignment/assessment will be assigned a point value that is part of the whole point value in a marking period. The weight of the assignment on the final grade is based on the number of points available for a given assignment/assessment.

☆ Each assignment/assessment is your opportunity to earn points toward a better grade! ☆

Classroom Expectations

Good attendance is critical for success in this class. Be on time! If you are absent, choose a classmate to call for assignments and check Google classroom for the notes you have missed. Missing homework due to absence must be made up ASAP. If missing class for lessons, school trips, sports, etc., homework is to be completed as if you were in class.

Remember, your success will be based on your responsibility.
